The 2016 summer Olympic games were held in Rio de Janeiro beginning on August 5th and ending on August 21st. There were many different sports such as volleyball, swimming, track, and diving. The United States played against many countries and ended up with a total of 121 medals. The United States placed first followed by Great Britain and China. They finished with 46 gold, 37 silver, and 38 bronze medals. In all there were 78 countries and everyone won at least one medal.

With a total of 31 different categories of games, each of the countries did their best. The categories ranged from archery all the way to wrestling. The games involved

teamwork, dedication, and determination in order to succeed. Every country did their absolute best by working hard on their goals for the Olympics. The games are held so that ever country near and far can show what they have been working so diligently on.

However, there were also some corruptions during the games. Ryan Lochte, swimming athlete for the United States, claimed he was robbed at a gas station. His story was investigated and later he claimed that he made it up. Ryan Lochte was quoted on *Vox* saying, "I should have been much more responsible in how I handled myself for that, I am sorry to my teammates, my fans, my

fellow competitors, my sponsors, and hosts of the great event."

## New Start to a New Season

Story by: Kayla Coleman—Great Falls High School—August 26th, 2016

The Cross-Country team at Great Falls High School has been preparing for the start of a new season. The runners practiced from June through August here at Great Falls High School. They ran over 3 miles everyday and each week would average of 15 or more miles per week. Some of their practices involved hill

training, fartlek's, and 5k runs each week. The runners recently ran a 5k scrimmage at Sandhill in Columbia. It was over 100 degrees and the runners did their best to battle through it. The runners finished strong and afterwards enjoyed a meal at CiCi's Pizza. Lydia Mills, an 11th grade runner, said, "Practice helps us to be-

come better and I do cross-country because it means getting into shape." 10th grader Landon Digh said, "Training is going really well this season. Cross-country is about having better endurance in order to make other people look bad."

## Getting prepared for the school day

Do you have problems getting ready for school? Well, you aren't the only ones. Breanna Hunter, Matthew Trent, and Breanna Hartley told us all about their problems with waking up early and got some great advice as well!

If you have problems managing your time in the morning, you are just like 10th grader, Hartley. "I wake up at 6 to eat and get ready then go to school, it helps me get to school on time, but I do make it to school right when the bell rings every now and then." A great way to manage your time would be to pack your lunch, and book bag the night before. Setting your clothes out before bed also helps!

Most everyone has an issue getting ready for school, whether it's not wanting to go, there is a big test that day, or you can't find your favorite shirt. Trent, a junior, said, "My issue is thinking about the people at this school, they get on my nerves."

Try to be positive, a new day brings better things! Focus on your school work and getting good grades.

Students having to stay up late on school nights is always a possibility. What if I have a school project? What if I have homework to do and other activities outside of school? What am I supposed to do to get through the day? You may ask yourself these questions after a long night. Sophomore Hunter, said, "I'm always tired during the day so I go to sleep in 3rd block and get rejuiced for 4th block."

Eating a healthy breakfast helps more than you think it would. You get the vitamins and nutrition your body needs to run on for the day. Not eating breakfast or eating junk food can slow you down even more after a long night.

Use these tips to get through the day and get on the devil level!

## A quick and easy trick for your laptop!

Desktop apps - If there is an app that you use a lot during or out of school and you have to go back and forth from the start page to the desktop, you can always save the app onto your desktop! Just open the app up and minimize the app (don't shut the app down)

and on to the desktop. Go down to the bottom of the screen, to the task bar and right click on the app you are always using. A tab will appear, click on "Pin this program to task bar" and now the app will always be

accessible to you quicker and easier. If you were to stop using the app you can always right click on the app, and when the tab appears choose, "unpin this program from taskbar".
